Company Profile

TIBA STONE is a specialized company in the supply and export of Egyptian marble and granite, offering high-quality products that meet international standards. We cater to both local and global markets by providing carefully selected natural stone materials processed using advanced techniques, suitable for various architectural and finishing applications.

Services to Add Value

Supplying marble and granite from our own

quarries: Extracting premium-quality marble and granite directly from our own quarries across Egypt, ensuring complete control over the supply chain, competitive pricing, and consistent quality.

Exporting to international

markets: Exporting a wide variety of Egyptian marble and granite products to several countries, ensuring high standards of finishing, packaging, and on-time delivery.

Custom cutting and

processing: Stone processing services tailored to client specifications, including custom cutting, and various surface finishes.

Mission

To provide high-quality Egyptian natural stone products that meet the demands of local and international markets.

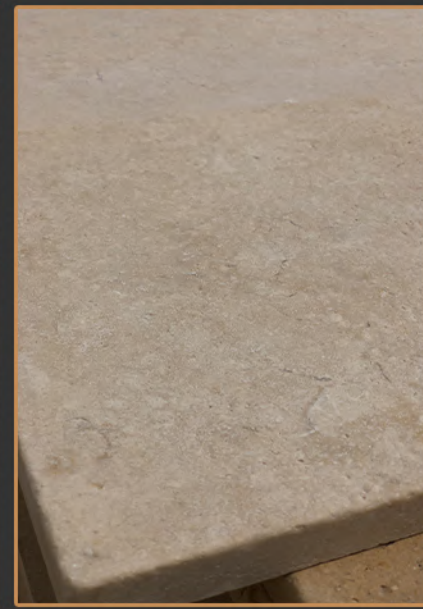

Vision

To be one of the leading companies in the marble and granite export sector across the Middle East and Africa, with continuous global expansion. markets.
